Styleco Candle Holder Including Refills - 4 pieces - TRANSPARANT

GENERAL

Tranquillity, comfort and sustainability go hand in hand in the new concept of the refillable StylEco candles.

These refillable candles contain no plastic holder and burn down completely, leaving no waste or residue. All that remains is the wick. Furthermore, no palm oil or animal fat is used in the production of these candles.
Refilling is also simple and easy. The glass holders are dishwasher-safe.

The glass holders are not only practical to use but also elegant. They are mouth-blown and available in three colours (brown, grey and clear). The candlelight creates a cosy atmosphere. The flame remains visible right until the very end of the burning time, and the shape of the glass creates a unique reflection of light on the table.

Please note: 1 box = 4 pieces
