

## Low Odor Stripper

C  
Corrosive

### Description

Red liquid with mild ammonia odour.  
pH-value pure: 12

### Application

For the elimination of polymer films from floors, in areas where it is important to work odorless.

### Dosage

Dilute the low odor stripper and spread over the floor. Let the product work in for 10 minutes without letting the floor dry. Afterwards scrub and vacuum up. If necessary, neutralize the floor with Eclipse Neutralizer, then rinse the floor carefully.

Dosage:

- Light stripping: 150ml per 5 liter of water
- Medium stripping: 250ml per 5 liter of water
- Heavy stripping: 500ml per 5 liter of water

### Ecology

This product complies with the legislation concerning cleaning agents.
